SPOTS
 "They Can't
 Come Back!"
 —not if removed from your clothes by the Jenkins process. Spots that "come back" have never really gone. They have merely been camouflaged by inferior cleaning methods. The present gasoline is of a very low grade—oil—smelly. It won't take out heavy grease spots unless it is put through an extra process of refining before use.

The Jenkins Process CLEANS—
 and Leaves No Odor!
 —because every drop of gasoline that is used is put through a special refining and deodorizing process. We have spent a great deal of money for apparatus to enable us to perform this service.
 When your clothes come from the City Dye Works they are really clean through and through—and they carry no disagreeable odor. We could do the ordinary kind of work for less money than we charge. City Dye Works service costs you a little more. It's worth much more. Phone 120 or 27071 and our representative will call.

OIL LANDS WILL
 BE OPERATED.
 Navy Department to Exploit Southern California.
 Grants to be Worked Directly or Through Leases.
 Some One Hundred Producing Wells on Lands Now.
 WASHINGTON, Aug. 19.—Plans for immediate operation of oil lands in the Southern California naval petroleum reserve, either directly or by lease to private operators on a royalty basis, are being considered by the Navy Department.
 Action is being deferred, it was learned today, until after August 25, which will conclude the six-months period, within which claims to oil rights within the reserve may be applied for lease under the land leasing bill. The naval reserve on which it is proposed to begin drilling, known as reserve No. 3, is that on which the Southern Pacific Railway Company recently won title.
 In addition to present extensive operations on the interlocking Southern Pacific properties, naval officials estimated there were approximately 100 producing wells on the naval reserve proper, lease to which undoubtedly will be granted claims under the land leasing bill.
 OIL COMPANIES RUBY.
 SAN FRANCISCO, Aug. 19.—At least three big oil companies, the Associated General Petroleum and Southern California, have filed applications for well leases on the California naval reserve. It was announced today that the following word from Washington that active development work under the land leasing bill, which was started after August 25, will be started after August 25.
 The bill opened the reserve to individuals and corporations, giving them the right to lease, provided they would, in return, pay claims they might have on reserve holdings.
 There are less than 100 applications for leases, it was announced by the oil division of the Department of the Interior before being decided upon, it was announced.
 GIVES LOCAL VIEW.
 Whether the contemplated decision of the Navy Department to operate the oil lands in Maricopa county, Southern California, would mean much to private operators depends entirely upon the royalty basis fixed last night. That there is an abundance of oil on the naval petroleum reserve is the belief of experienced oil men who are willing to develop the industry in Maricopa county on a reasonable royalty, said Mr. Maxson, but if the royalty is placed at such a figure as not to allow a fair and reasonable profit private operators will not avail themselves of any opportunity the Navy Department may afford them.
 Mr. Maxson said the step the Navy Department is reported to be considering would help untangle a snarl which had existed for four or five years, since the time the Navy Department preempted the producing wells of private individuals, impounding several millions of their money and then failed to operate the oil lands itself.
 AWAIT AUGUST 25.
 Local oil men are said to be waiting for the expiration of the six-months lease period on the oil lands outside the naval reserve, on August 25, when they will file applications for prospecting permits, with the Secretary of the Interior. Under the land leasing bill's terms, prospectors may lease 2560 acres and upon discovery of oil may retain one-fourth interest, the other three-fourths being put up for sale to the highest bidder.

 (BY A. P. NIGHT WIRE.)
 MINNEAPOLIS, Aug. 19.—A fourth evening paper was launched here today when the Minnesota Daily Star began publication. It declares it is an "independent daily newspaper, owned and controlled by 20,000 stockholders."
 The Star's president and editor is Herbert E. Gaston, formerly of the Park (N. D.) Courier-News.
 Mr. Gaston stated that about 50 per cent of the stockholders are city residents and about 50 per cent are farmers, many of the members of the Nonpartisan League. Several labor unions also hold stock, he said.

GLEN ELLISON

At Trinity Auditorium

Several thousand people attending this remarkable
test heard the popular Scotch baritone, Glen

with his own New Edison RECREATIONS, and
with the New Edison continued alone, affording
the great audience the best possible opportunity to
compare the artist's voice with the RECREATIONS.

But in spite of this severe grueling there was not
a single note of faltering in the voice of the

COX HITS G.O.P.
CAMPAIGN FUND

Charges Selfish Interests Are
Contributors.

Nominee Makes Promises of
Tax Reductions.

Favors Regulation of Cold
Storage Plants.

(BY A. P. NIGHT WIRE)

SOUTH BEND (Ind.) Aug. 19.—Charges that at least \$15,000,000 is being contributed to the Republican campaign fund by selfish interests, were made today by Gov. Cox in two addresses opening the Indiana Democratic campaign.

"That is its low mark," he said, "and the sky apparently is the limit. In Ohio \$500,000 was raised in the twinkling of an eye. They have subdivided America into seven districts and influential men representing selfish and greedy interests are passing the hat. They are trying to buy a governmental underbolt. It is a mere hazanella with what the contributors expect to get back."

Plea for the League of Nations, denunciation of what he said was the Republican plan for a separate peace with Germany, promises of tax reductions and problems of the high cost of living were other features of the addresses. He spoke to laborers today on the Courthouse Square, attended a banquet of the Indiana Democratic Editors' Association and tonight addressed another large public meeting.

ATTACKS WALL STREET.
The Governor declared Wall street "interests were planning to 'emasculate the Federal Reserve Act, should the Republicans win, by providing that bankers only shall be eligible to a Federal reserve board membership, to secure power over credit and interest rates."

He also urged Federal regulation of bankers and other cold storage concerns with time limits for storage of foodstuffs.

To the editors in his audience, Gov. Cox gave his views on the print paper situation, urging restoration, insisting against a print paper combination and declaring manipulation and panic have contributed to paper shortness. He suggested Federal supervision. He also took sharp exception to Senator Harding's depreciation of the disappearance of political organs, urging an "independent press," he said Senator Harding was "a dangerous person."

suggesting control of papers, by the "Benito oligarchy."

"The League of Nations is the only way to peace, and it is more important today than yesterday."

"Because, thank God," he added, "the mothers of America have a voice in saying when war shall or shall not be."

Praising women as "progressive, intuitive, and patriotic," Gov. Cox continued:

"Their mother instinct is going to stay the hand of war and that is sufficient to justify the cause of woman suffrage."

LEAGUE IS NEEDED.
The League, he declared, is necessary to keep faith with the boys who died in France, and also, he said, involves "the purse, the home, happiness and the self-respect of every man, woman and child."

It is needed, he said, to reduce the cost of living by decreasing taxes for armament and by stabilizing agriculture and industry.

Republican arguments that the League would impair American sovereignty were pronounced "moonshine" by the Governor, declaring that if American sovereignty were impaired, it would be that of twenty-nine other League members.

"The League of Nations is the salvation of the peoples of every nation," he said.

ATTACKS REPUBLICANS.
Republican opposition, Gov. Cox reiterated, is "a smoke screen of hypocrisy to secure the spoils of office."

He also denied that the League would get America into European squabbles.

Some Republicans, Gov. Cox said, objected to President Wilson's visit to France.

"The President went," he asserted, "to prevent consummation of a dishonorable peace, and he won a greater victory at the peace table than was secured in battle."

Gov. Cox also rapped Sen. Harding's front porch campaign and often assailed the Republican "Senatorial oligarchy," which he said was now attempting to elect one of its members President.

Attacking the Republican campaign fund, Gov. Cox said:

"This will be used in certain close and pivotal States, and it will be put to the uses, which cannot be defined in ethics."

Certain bankers, who, the Governor said, are contributing, are those, who, he charged, were seeking to emasculate the Federal Reserve Act.

"Many bankers, in writing their checks," he continued, "to the Republican National Committee, are doing so, not as contributors, but as the Democrats."

Referring to the spread of Bolshevism, Gov. Cox declared:

"The surest guarantee of Bolshevism is an administration which is revealed to have bought the Presidency."

The Republicans, Gov. Cox said, believed "this is a Republican year, and followed by presenting the metaphor of a man trying to carry a bundle of eels in a shawltrap."

In pledging himself to Federal cold storage control, Gov. Cox charged that the Republican leaders had held the Kenyon control bill in committee, continuing:

"Give me a Democratic Congress and I will promise to get it out of committee quicker than you can say 'Jack Robinson.'"

That he would call a special session of Congress next March, if elected, was indicated by Gov. Cox in declaring:

"I favor repealing as many of the war taxes as possible, and doing it in the early part of March."

Someone asked why there were no laws now regulating cold storage, and Gov. Cox said a Federal law was necessary because State laws limiting foodstuffs storage could be circumvented by removal of food from the State.

"Republicans have been in control of Congress two years. They should tell the country why legislation for regulation of cold storage plants was not passed," declared the speaker.

The woolen industry, Gov. Cox also said, was "pretty well under trust control," with mills closed in the face of sustained demand.

"These interests," he continued, "know perfectly well they have been protected in the past by reactionary administrations."

(BY A. P. NIGHT WIRE)

SPOKANE (Wash.) Aug. 19.—Declaring that the whole future of the United States is to be determined by the Senatorial elections this year, the paramount issue of which he defined as Americanism against internationalism, United States Senator Miller PoinDEXTER, chairman of the Republican Senatorial Campaign Committee, tonight outlined several questions he said would be answered by the voters.

Those questions, he said, dealt with "the preservation of the United States as a sovereign and independent nation with complete control over its foreign and domestic affairs," the Monroe Doctrine, "the protection of American manufacturers with particular reference to new industries developed during the war," the promotion of American foreign trade with every encouragement and safeguard which our citizens, both at home and abroad, have a right to expect from their government; "cancellation or amendment of treaties which prevent us from giving preferential tariff rates on goods imported from American ships; free use of the Panama Canal by American ships and vessels; and 'repudiation of wholly unauthorized international agreements made by the Democratic administration with certain oriental countries.'"

The latter, Senator PoinDEXTER's statement said, "have been promulgated, as the policy of the United States, wholly without authority, because they have never been submitted, as required by the Constitution, to the United States, for the consent and approval of the Senate."

Millions Assessed Against Ireland by the Courts.

Sinn Fein Councils Refuse to Collect Money.

Want Government to Pay for All the Damages.

[SPECIAL CORRESPONDENCE.]

DUBLIN, Aug. 8.—The sums awarded by the courts to the victims of "malicious injuries" in Ireland now aggregate nearly \$600,000. They are payable out of local taxes, and it is the duty of the new local Sinn Fein councils to levy and collect the money.

This they refuse to do and, so far, the relatives of the murdered policemen and others, as well as the owners of destroyed property, are unable to obtain payment.

Even if the Sinn Fein councils were willing to assist the claimants, however, the sum is so great that it is said it would prove "intolerable to the overburdened taxpayers."

The large taxpayers are Unionists who do not relish the prospect of having to pay for the outrages of men with whom they are not the slightest sympathetic. There has, therefore, been started an agitation for relieving citizens of the burden of these charges.

ACTS OF WAR.

The argument is that these outrages were undoubtedly acts of war. They were of the same kind and character as those for the purpose as the rebellion of Easter week. Some of the judges who have been asked to have indorsed the view from the bench.

The British government paid out of the Imperial Exchequer the damages done in Easter week. They appropriated \$15,000,000, out of which the ruined portions of the city of Dublin are being rebuilt. They have now been asked by resolutions of the grand juries of Irish counties, which consist almost entirely of Unionists, to have the Easter week precedent and to pay out of Imperial funds for the damage now frequently being done to life and property.

The government has been quite willing to pay for the damage done by the soldiers and police in the cases of retaliation that have occurred in Thurles and Fermoy, but they are unwilling to do so in the case of the damage done by their opponents. Meanwhile, the victims are left without compensation.

FLOUR MILL IN ARCTIC CIRCLE.

[BY A. F. CORRESPONDENCE.]

PORTLAND, Aug. 12.—Equipment for a flour mill to be installed in Alaska, 173 miles south of the Arctic Circle, has been sold to a Fairbanks (Alaska) firm by a Portland machinery company.

The plant will be of twenty-five barrels' daily capacity, operated by steam, and will be shipped from Seattle by steamship to St. Michaels, transhipped by a Yukon River boat to distant points. It is now being sent from the mouth of the Tanana River by rail to Fairbanks.

Since 1914 wheat of hardy variety has been grown in the Aniana Valley, the period of security against frost and development has reached a point where a small mill can be maintained there successfully.

LOST TROPHIES FOUND IN BANK.

[BY A. F. CORRESPONDENCE.]

SHANGHAI, Aug. 1.—Silver trophy cups of the Shanghai Rowing Club held by German rowing crews when the war broke out, and which disappeared at the time of the German expedition to the Yangtze, were brought to light unexpectedly at a recent dinner of the club. They were awarded to the Scottish and Danish crews, winners of the spring regatta.

It was disclosed that when the affairs of the German bank in Shanghai were taken over by the Bank of China the lost cups were found in a vault.

CATTLE RUSTLERS USE AUTOMOBILES.

[BY A. F. CORRESPONDENCE.]

REGINA (Sask.), Aug. 17.—The motor car, it seems, has become a new ally in the rustling business. The old and well-known practice of cattle rustling when they used to drive stolen herds before them is now a thing of the past. A few days ago three calves were stolen from a herd near Brandon and driven to the international border in two motor cars. Three of the rustlers were seated on this side of the line and two others in Montana and are now awaiting trial.

TELESCOPE LOOK RESCUES FOUR.

Woman Takes Poek, Just for Fun, and Locates Lads in Trouble.

[BY A. F. NIGHT WIRE.]

NEW YORK, Aug. 19.—The eye of a woman scanning the ocean through a telescope—"just for fun"—today caught sight of four boys clinging to the gunwale of an overturned rowboat, drifting on a sea mile off shore.

She dropped the glass and rushed to a life-saving station, where she directed rescuers to the boys' aid. All

ASTHMA RUINS LOVE'S DREAM.
Husband's Alliment Cause of Divorce in Riverside Her, Says Wife.
A new cause for severing the marital lines apparently cropped into the records yesterday when Judge Crall granted Mrs. Rae Goldman an annulment of her marriage to Sam Goldman.
The latter did not tell his wife before their marriage that he had asthma. As a consequence of his ill health, his love making overtaxed his strength.
His condition terrified her, Mrs. Goldman stated.

Pasadena FURNITURE CO.
Ten Floors—In a Location That Enables Us to Sell for Less

Furniture of Dignity and Beauty in the Midsummer Clearance

Our ten-floor establishment is crowded with fine furniture awaiting your selection. Here are shown grace of design, beauty of materials, excellence of workmanship and perfection of finish, culminating in a furniture stock that goes out daily to the most beautiful homes of Southern California and all this furniture is offered you at prices that are less than those prevailing elsewhere. Especially is this true during these opportune days of the Midsummer Clearance.

We have been asked many times to explain the how and why of our low prices. The answer is simple. We do a large volume of business under low overhead expense and our turnover is rapid. To maintain the latter during the "dull" Summer season we instituted this Clearance which is not only upholding our million-dollar sales quota but is broadening our reputation as "the store that sells for less."

An Unusual Offer from the Upholstery Department

Among the attractive living-room furniture displayed on our first and sixth floors are very many excellently made pieces of overstuffed furniture in temporary coverings. These rockers, chairs and davenport are well built with spring backs and seats, which give the maximum comfort possible. We offer you the privilege of selecting any velvet or tapestry in our stock—goods ranging in price up to \$16.50 per yard—and of having us cover with it such pieces as you desire, the cost of the labor and material being included in the price of the furniture. This is a most unusual opportunity—an opportunity, however, that is representative of our ability to serve the home makers of the Southwest.

MRS. LUCY DOUCETTE, of Manchester, N. H., who says she's just so happy over the way Tanlac restored her health she can't keep from telling people about it.

"I am just so happy over the way Tanlac has restored my health that I can't keep from telling people about it," said Mrs. Lucy Doucette, of 76 Stark street, Manchester, New Hampshire, a few days ago. "I suffered so long with chronic indigestion that I didn't know what it was to sit down and enjoy a single meal. My stomach was so badly disordered I had to live on the strictest diet, and nothing seemed to agree with me. At times my breath seemed to be cut off and I would suffer terribly for hours at a time."

"I lost my strength completely and became so weak and run-down I would give out several times during the day and would have to stop and rest. I was extremely nervous and irritable, and just felt like I would break down completely."

"One day I saw a statement from a friend of mine who said Tanlac had helped her wonderfully, so I was convinced it was a dependable medicine and I began taking it immediately, and I am more than pleased at the splendid results. My appetite improved right from the first, and the horrible indigestion from which I suffered so long has entirely disappeared."

"I have now finished my fourth bottle, and can eat just anything I wish without any bad after-effects. I also sleep better and have more strength and energy. It is a pleasure to tell others what Tanlac has done in my case."

Tanlac is sold in Los Angeles, Pasadena and San Diego by Owl Drug Stores, and by Irwin's Drug Store, Redondo Beach.

William Wrigley Returns East After Short Visit.

PASADENA, Aug. 19.—R. M. Remy, 32-year-old, a retired business man, shot and killed himself at 10:30 o'clock this morning. He had been dependent for some time past. Hearing a shot in the bathroom Mrs. Remy opened the door and found her husband's dead body. While seated in a chair he fired a bullet from a large caliber revolver into his forehead.

Mr. Remy formerly was proprietor of the Pasadena Produce Company on East Walnut street. Besides the widow, he is survived by four sons and a daughter, M. B. Remy, W. J. Remy, T. E. Remy, R. E. Remy and Miss Ellen Remy, all of whom live at the family residence, 668 North Los Angeles avenue. "I suffered so long with chronic indigestion that I didn't know what it was to sit down and enjoy a single meal. FLAMES THREATEN REDLANDS MANSION.

REDLANDS, Aug. 19.—The old Theodore Clarke home, one of the most beautifully interior finished homes in Southern California, was saved from being destroyed by flames yesterday, only by a strong wind that kept the grass and brush fire in front of the house, away from the building.

A dozen of the oldest palm trees in Redlands were damaged and probably four of them killed. They caught fire from a small brush fire that spread unexpectedly through the dry grass. The trees were more than twenty-five years old.

The Clarke house is finished with wainscoting in solid mahogany downstairs. Upstairs there is one room, walls and ceiling in solid bird's eye maple.

Officials Open Line During Meet of American Legion.

SAN DIEGO, Aug. 19.—Word was received today from the State Department in Washington by the American Legion that the California-Mexico line will be open to Legion members and their friends during the convention in San Diego on Monday, Tuesday and Wednesday. This will permit the delegates to visit Tia Juana in Old Mexico.

Since the revolution has been in progress in Lower California the line between San Diego and the Mexican city has been closed. Recently the Legion decided on San Diego for its convention because of the amusements offered in the near-by points. Then the revolution took place and the border was closed and Senator Phelan was appealed to. He wired the State Department and yesterday word was received that the line will be open until 10 o'clock Monday night and until midnight on Tuesday and Wednesday.

CHARGE BOOTLEGGING.
[LOCAL CORRESPONDENCE.]

SANTA BARBARA, Aug. 19.—M. Mora, charged by the police with selling intoxicating liquor in violation of the Federal prohibition law, has been taken to Los Angeles by a deputy United States marshal. The charge is that he sold a pint of whiskey for \$5. The officers charge that he had a regular runner, who found patrons in two of the poolrooms of Santa Barbara. Mora denies the charge against him. The Federal officers have served notice here that hereafter no leniency is to be shown violators of the liquor laws by the Federal courts. Until now local prisoners taken before the United States courts have been dismissed on paying small fines, and the Federal authorities claim this leniency has tended to increase bootlegging and moonshining in this section.

SPEEDING DOCTOR DRAWS JAIL TERM.

SANTA ANA, Aug. 19.—Dr. O. Bell, San Diego dentist, will be forced to serve a ten-day term in the Orange County Jail for speeding. He is at liberty temporarily, on bail granted him in order to take care of pressing business affairs.

Bell was arrested on the State highway south of Santa Ana, going fifty-four miles an hour. He pleaded guilty before Justice J. B. Cox today.

Bell was in jail a few hours, then secured bondmen pending an appeal, and said that as soon as his affairs were in shape, he would drop the appeal and return to complete the term. The case of G. C. Hanish, Covina rancher, also arrested for speeding over fifty miles an hour and due for a jail term, was continued to August 25.

SLING IT INTO ANGELS AGAIN.

Careless Senators Find Seraphs Easy Pickings.

Killefer Thrown Out of Game for Squawking.

Big Bill Prough Shows He's Good Front Runner.

BY ED O'MALLEY.

Well—what's the matter with our Angels—can't they take a fall out of the tallenders? Just think of it—dear bugs—the despised outsiders—the Sacramento miffs, beat them again yesterday, 5 to 1.

In times gone, before the erstwhile Tipplers had their tonsils cut out, Washington Park atmosphere was redolent with cawing pep. The Solons were then a team difficult to bang it on.

Now they are as careless and harmless as a dyspeptic ostrich, and yet possess the power to dethrone our Angels at will. Are we destined for the rusty scent of the cellar? Tea—begin to look that way.

Ray Kestling was hit upon as the pitching Moses to lead the Celestials into any old kind of a promised land, but failed in a noble undertaking. Ray was not at his best, but even had he been at his best, the drooping Seraphim would have belittled his choicest efforts.

FRONT RUNNER KILLER.

Big Bill Prough, held the reins for Buddy Ryan, and his brood, and as Bill was in front all the way—a position which makes him a composite Alexander and Johnson—he just simply heaved his head off.

If the Angels had a chance to win, Red Killefer balled it up by a rumble with Umpire Anderson in the opening canto. Red named behind the eyes, when he was called out at the plate on a close decision. Anderson, scenting the wrath to come, turned away from Killefer as the latter jerked to his feet. Red, instead of sending a tracer

out to verify the verdict, grabbed Andy by the arm and rudely pulled him to a "meet me face to face." "You're out," snorted the arbiter with a tone of finality as he waved a twittering bye-bye with the fingers of his right hand.

Killefer, stunned into incredulity by what he thought was an utterly absurd decision, tried to shake Anderson's twisted mediulla into a reasonable mood, but that same mediulla was tangled harder than the famous Gordian knot, and as Red's many limbs and of the press possessed by Alexander of old, that old knot refused to be slit in any kind of a way.

SHOWED FOR RED.

Ergo—Killefer was told to tip toe to the shower, where the cool spray would evidently calm his blood pressure to the normal forty-five mark—and Red tipped. Sam Crawford was sent to first—and maybe you think Sam can't first it—and Curly Brown to right field.

The little mix-up in the first, came off something like this: Killefer cleverly bounded one to the left of the plate, which quickly and was almost in a state of decomposition by the time Third Sacker Sheehan ran and the ball was easily safe at first. Hurrah for Red, for a moment later he pulled off as neat a piece of base stealing as has been seen at the park in a long time. McAuley was an easy out, Orr to Mollwitz.

A MIGHTY SWAT.

Karl Crandall in trying to repeat Hack Miller's clock hit of last week, trickled a consumptive little offering to Sheehan, who shot him out to first. The swinging dandy, or then tossed the ball to Cook and Killefer was nailed at the plate. It was a close decision, but as the spoken word never has recalled, all the kings horses and all the kings men couldn't pull Humpty Dumpty up on the wall again.

As far as the old rubber at the plate was concerned, for the rest of the day, the Angels' cleats lost all affinity for it, but not so with the Tipless crew. They had made up their minds to swing five runs over the plate, and this they accomplished without much effort on their part. The fourth inning found the fruit ripening suddenly. On singles by McDonald and Sheehan, and a tying triple by McDonald and McAuley, three runs skimmed over the plate in a very short time and the horrible deed was done. After the game, the Angel's error column looked like an assist column, with Karl Crandall leading the van in a class by himself.

TELLS TALE OF ROBBERY AND INJURY.

**Bleeding Man Dashes Into
Police Station and Pleads
for Protection.**

Attacked by a stranger in his
rooms at the Sherman Hotel at
Fourth street and Broadway and
robbed of almost \$400 in cash—that
is what happened to John M. Mac-
dougall of Santa Barbara yesterday
afternoon, according to his report to
the police. His story is now under
investigation by Police Detective
Fitzgerald.

Bleeding from a badly-lacerated
face and clutching about \$100 in
bills in his hand, Macdougall rushed
into the detective bureau at Central
Police Station and announced that
he had just escaped being beaten
to death. He demanded and was
assured protection before he would
tell his story.

From what the officers were able
to learn from Macdougall's tale, he
encountered a stranger in front of
his hotel. The two men talk the
stranger was invited to Macdougall's
rooms and the two ascended togeth-
er in the hotel elevator. As soon
as he entered the room the stranger,
according to Macdougall, attacked
him, grabbed most of his money and
then fled.

COUNCIL TAKES PARK.

**San Fernando Site Accepted After
Offer Was First Refused.**

Mrs. Leola Sloan-Orcutt, head of
the Park Commission, last night ex-
pressed her gratification over the ac-
ceptance by the City Council of the
six and a half acre park lot opposite
the San Fernando Mission. A year
ago L. C. Brown, owner of the plot,
offered it to the city, but it was not
accepted then because the city had
no one to take care of it. Arrange-
ments have been made for an em-
ployee from one of the other parks
to spend one-half of each day on
the upkeep of the new park. Mrs.
Sloan-Orcutt voiced particular thanks
to Councilman Griswell for his in-
terest in the matter of having the
Council take over the plot.

Los Angeles for more than a score
of years. He was secretary of the
British Overseas Club and a member

Margie Knight, and two step chil-
dren, Allan and Clarence Hand.

**Espee Official Says Influx of Tourists
Will Be Heavy.**

Filled with optimism for the com-
ing winter season, Charles S. Fee,
general passenger agent of the
Southern Pacific, arrived in Los
Angeles yesterday. Mr. Fee, who is
at a local hotel, has just returned
from a trip throughout the East,
where he has been studying condi-
tions and making forecasts for the
approaching year.

More people are making inquiries
and reservations for the winter than
before, he said. The East is
full of money and people are going
to spend it and the Coast appeals
to them as a desirable playground.
Mr. Fee stated that he does not be-
lieve the new rates will affect the
travel to any great extent. The only
tourists who will be affected are
those of moderate incomes, who
come to the State each year and
are known as "bungalow tour-
ists," he said.

PERSONNEL TO CHANGE.

HARRY HILLIARD WILL BE NEW MOROSCO STOCK LEAD.

By Edwin Schallert.

Several changes of importance in the personnel of the stock company at the Morosco Theater are in prospect, although only one of these is scheduled for the immediate future. This will be the departure of Louis Calhern, who has been leading man for the past four or five months. Mr. Calhern is going into picture work.

His place will be taken by Harry Hilliard, who has attained prominence both on the stage and in the films. He has played the leads in a number of cinema features with Universal, Fox, Metro and other companies.

He has been engaged in theatrical work for the past fifteen years and played in "The Very Idea," which is now being presented at the Morosco, after Ernest Truesdell had closed his engagement with the New York company.

Mr. Hilliard will make his first appearance the 29th inst, probably in the present attraction, as it is likely this will have a run.

Another possible change that may take place in the fall, concerns Miss Eleanor Wood, who has been the leading woman of the company for the past year and a half. Miss Wood may go to New York in October as the star of a new Morosco production, "Mom."

This play is one of the recent acquisitions of the producer, and he is known to be very favorably inclined toward featuring Miss Wood in the place, if he decides to put it on at the time specified.

SPECIAL PICTURES

TAKES OVER STUDIO.

Completion of negotiations whereby the Special Pictures Corporation acquires the old Fred Balshoff studio, formerly used in making of Metro productions, at 1225 Gordon street, was announced yesterday.

Heretofore the Special Pictures has been using a part of the Balshoff studios at Long Beach, but on increasing the production schedule, the company found the acquisition of a complete studio necessary.

Work has already started on a picture, the same being a "Comedienne" starring Charlie Merriam. Reggie Morris, who directed "Married Life," is making the feature.

Chester Conklin will begin his first two-reeler, "His Wife's Relations." Conklin has just returned from a personal appearance tour of the Northwest.

H. J. Roberts, general sales manager of the concern, returned from New York a few days ago, where he made exchange affiliations. Eight releases weekly are planned by the Special Pictures.

LOUIS MAYER WILL VISIT NEW YORK.

Louis B. Mayer, producer of First National attractions, starting Anita Stewart and Mildred Harris Chaplin, will leave for New York Sunday. As it is over a year since he has been East and much longer than that since his last vacation, this will be a combination business and pleasure trip.

While in New York, Mr. Mayer will have an important series of conferences with First National executives. His present contract with that organization is for a year, and he wishes to perfect his plans for the 1920-1921 production year.

In addition to making star productions during the coming year, Mr. Mayer plans to produce a number of both A and B picture series with all-star casts. The only one of these stories announced at the present time is Harold MacGrath's "Sunday Evening Post" serial, "Drama of Jeopardy," but it is said that Mr. Mayer holds the film rights to some of James Oliver Currier's successes and to the works of other authors of equal note.

Several big deals, regarding the purchase of plays and books, which are now pending in New York, will be settled up to his arrival there. Accompanying him on his trip will be Irene, Edith and Mrs. Mayer. Mr. and Mrs. John M. Stahl and Madge Evans are expected to return to the studio within a very short time to start the wheels of progress moving in preparation for a big 1920-1921 production year.

SHOW MOTION FILM OF DIVING STAR.

Irving Lesser, general manager of the Western Exploitation Company, announces that his organization will control the world's rights to all products released by the Cine Process of slow motion photography. The first release will be a beautiful subject of Annette Kellerman.

This marks the first time that the star has been filmed in slow motion. Owing to the fact that Miss Kellerman has earned a reputation for the beauty of her figure and the grace selected to prove the advantages that can be obtained with the process.

Rupert Hughes Here.

For the purpose of completing the scenario of an original story, Rupert Hughes of Goldwyn's Eminent Authors Staff, is in Los Angeles, and plans to remain here for about three weeks. He is stopping at the Beverly Hills Hotel.

It was upon Mr. Goldwyn's own suggestion that Mr. Hughes came West. The producer was enthusiastic over the author's story on seeing it in New York and expressed the wish that Mr. Hughes himself might assist in the writing of the continuity.

One of the Hughes pictures, "Caravan" is now being filmed with Tom Moore as the star at the studio in Oliver City.

Mary Pickford Cast.

Mary Pickford is making up her cast for the new comedy drama that is being written for her by Frank Marion. This picture will be produced at the Brunton studios. As yet, it is unnamed.

Juggle to Believe Strain.

The strain of sustaining intense dramatic roles from hour to hour for days at a time in filming "Outlawed," has impelled Priscilla Dean, Wheeler Oakman and Lon Chaney to take up juggling, to relieve the nerve tension between scenes.

Tod Browning's assistant, Leo McCarey, is also an enthusiastic juggler, and has worked up a routine with Wheeler Oakman in which they use everything from empty film cans to chairs and water pitchers.

Fairbanks Feature.

Supporting players for Douglas Fairbanks' next picture, are rapidly being selected, indicating that within a week, considerable headway will have been made with the next

United Artists' production, from this plant.

"The Curse of Capistrano," by Johnston McCully, story of love and adventure, having to do with the early settlers of Southern California, has been chosen as the next vehicle for Fairbanks. The screen adaptation has already been prepared by Eugene Mullin, from the original, which appeared in the All Story magazine.

Selection of the supporting players is in the hands of Fred Niblo, who accompanied Mr. Fairbanks from the East, following his engagement as director of the production. The director is going over the names of available players for distinctive types.

The executive and technical staff at the Fairbanks studios is the same as it was during the making of the last two "Big Four" productions.

According to the schedule arranged, Mr. Fairbanks will complete "The Curse of Capistrano" and another production within the next five months. Already, he has two plays in mind to follow his present undertaking, both of which are stories of which he is the author.

MURRAY WINS ROUND.

Comedian Enters Ring in Behalf of War Veterans.

Charlie Murray appeared in the ring last Tuesday night and won in one round. He told the fight fans at Doyle's Arena, Los Angeles, about the boys at Arrowhead Springs and informed his hearers that he was going up there Sunday with a troupe of program givers to stage a show for the disabled soldiers.

Murray then asked whether anybody in the four square pavilion wanted to contribute to the comfort of the veterans of the World War by buying a box of cigars. The answer was a shower of money totaling exactly \$549.40. The coins were in denominations from a penny to a dollar.

The cash was counted, turned over to Jack Doyle of Doyle's Arena as a deposit on cigarettes, cigars, pound boxes of candy, gum, chewing tobacco, pipe tobacco, to be drawn on for the men at Arrowhead.

Six seven-passenger autos were donated for Sunday by Harold L. Arnold, to take the players up to Arrowhead and back.

CLEVER TECHNICAL TRICK.

By a trick of photography, the action of Ethel Clayton's "Crooked Streets," at Clune's Broadway, was superimposed in several instances upon photographs of real scenes in Shanghai, China, where the play is laid. Portions of the native quarter of the ancient city were perfectly reproduced on the banks of the studio tank at Lasky's, and so realistic is the effect that a world-trotter who had lived in China was thoroughly convinced that the play had been filmed in that strange Chinese city.

COMPANY IS YACHTING.

Wanda Hawley, Director Sam Wood, Jerome Patrick and Sam Reall players left last night for a five-day bona-fide sea trip. They embarked on the steam yacht Kenah at San Diego and are now cruising off the Lower California Coast, making scenes in Miss Hawley's latest comedy-drama for Reall.

The craft was hired for the picture, crew and all.

"Buddies" Soon to Show.

The musical comedy, "Buddies," which has had a long run in New York, is to be the attraction at the Mason Opera House. The title is "The Road to London," and it will be made in the actual locale of the story.

Moore Chills Special.

George Austin Moore, who comes to the Orpheum next week, was the author of one of the most famous chills (chills) ever held at a theater about two years ago. The party was given back stage, with Joseph Howard as one of the waiters, and Ethel Clayton as the hostess, while Moore was the cook. Moore is a specialist in the peppy culinary art.

Hip Summer Special.

A real summer show is the musical comedy put over by the Ship Ahoy Girls at the Hippodrome. The title is "The Road to London," and it will be made in the actual locale of the story.

Washburn Busy Abroad.

Bryant Washburn is already busy on his first independent production in England. The title is "The Road to London," and it will be made in the actual locale of the story.

Supporting players for Douglas Fairbanks' next picture, are rapidly being selected, indicating that within a week, considerable headway will have been made with the next

MADGE KENNEDY

IN STAGE PLAY.

That delightful screen comedienne, Madge Kennedy, is to return to her first dramatic love, the stage, according to advice from the East. She will appear under Henry W. Savage's management in a new comedy, "Cornered," opening her engagement early this fall. Miss Kennedy has not been seen in a stage play for several years. She last appeared in "Fair and Warmer," in which she was surprisingly successful. She has been filling a long-term picture engagement with the Goldwyn corporation the past several seasons.

WILL FACE FIRST WIFE.

Wanted in two States; May go to Idaho on Bigamy Charge.

Lee Oviatt, wanted in two different States on charges of passing fictitious checks and bigamy, will probably go to Pocatello, Idaho, to face wife No. 1, who accuses him of bigamy, and the father of his second wife, who accuses him of passing fictitious checks. Sheriff Anderson of Pocatello arrived in this city yesterday with extradition papers, a day in advance of a deputy sheriff of Salt Lake City, where extradition papers have also been issued for Oviatt.

A. C. Webb, Oviatt's attorney, yesterday caused to have continued a writ of habeas corpus sued out on Oviatt's behalf. The writ will be up today before Judge Willis. It was intimated that Oviatt's attorney would have the petition for the writ dismissed and allow him to go to Idaho for trial.

HOSPITAL SEES PLOT.

Connell Told New Hollywood Zone Lay Would Bar It.

That the object of a petition filed with the City Council, asking that a new residential zone be established in Hollywood is to prevent the construction of the Hollywood Hospital was stated yesterday by promoters of the new institution, who appeared before the Public Welfare Committee of the City Council to protest against the creation of the new zone. It is planned to build the hospital on Cahaba avenue, but if the district is made a residential zone, the building of the institution will be prohibited. The committee will hear both sides to the controversy next Thursday afternoon.
